Purpose

Discussion reinforces the interdependence needed for equity work.

A guided discussion, like this one, democratizes voices.

Successfully holding a guided discussion creates a shared, lived experience of how an equity discussion looks, sounds, and feels.

- Multi-racial
- White

Notes: Totals are auto-summed based on the data in the columns provided in these profiles. The Multi-racial and Native Hawaiian/Pacific Islander populations are not reported for the First-Time Curriculum Students. The Multi-racial population is also not reported in the population estimates (Census data reclassifies Multi-racial among the other groups). Students with race and ethnicity unknown are not included in the data. K-13 Enrollments are from Academic Year 2019-2020. Cells marked "--" indicate unavailable data.

Frame Handout – Part 1

Population and Enrollment Trends by Race/Ethnicity

When I look at these population and enrollment trends, I am most interested in _____ (Select a population from the first column.) in _____ (Select a race/ethnic group from the top row.)

I observe that there is a total of _____ in this group overall.

(Provide the total number for your selected population. See the second column named "Total".)

Frame Handout – Part 2

I also see that there are _____ (move to the right from the total to the # for your selected race/ethnic group), which is _____ % of the total.

(Found in the row below the # in grey.)

This makes me wonder... (Complete this statement in the space below.)

Circle of Voices

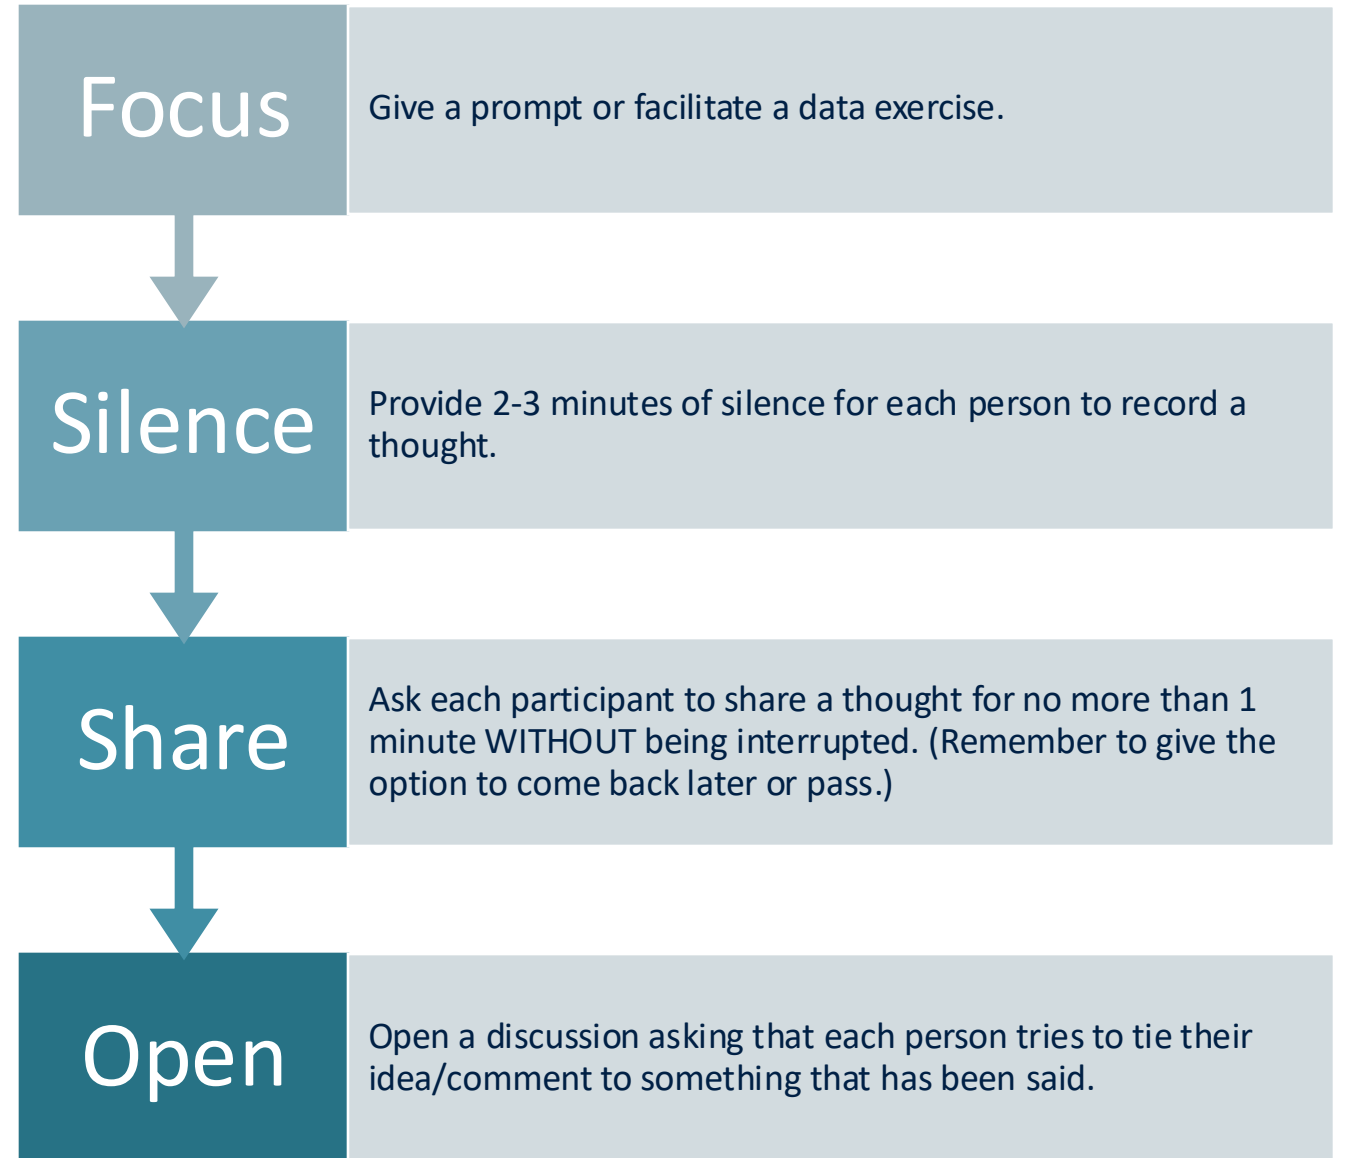

Description: A structured discussion that ensures:

- (1) each person participates,
- (2) minimizes opportunities for one voice to dominate, and
- (3) provides time for a focus to emerge, not be forced.
