

# SI Director Summary Report Fall 2017

SI	Question					
	The SI was organized and clear in the conduct of their sessions.	The SI promptly announced sessions and reminded students about upcoming sessions.	The SI did NOT allow student questions to sidetrack his/her plan for the session(s).	I felt more comfortable with the course material because I attended SI sessions.	I believe my grade in the course improved because I attended SI sessions.	I would recommend attending SI sessions in this course to students taking the course in the future.
